

California Contractor School

Â Â Â CONTRACTOR LICENSE EXAMINATION PREPARATION Â Â

There's never been a better time to become a licensed

California contractor. Not only does licensing protect your business financially and legally, it gives you the stature of a professional, the ability to apply for loans and the ability to buy your construction materials at a discount. Licensing will put you on the road to achieving your professional and financial goals.

Our self-study courses will give you the knowledge needed to successfully pass the exam, in language easy to understand. In addition to the License Law, you'll learn about the Labor Code, Mechanics Lien, Workers Compensation, Basic Accounting and Business Management.

Our home study classes offer you a practical way to take that stepâ€”with self-paced, independent learning that will put you on the path to business success.

The California Contractors License Law and Reference Book is available for purchase.

Your law, business and trade manuals are supplemented by a series of easy-to-follow DVDs.

Â
The exams are held in

Buena Park ,

Inglewood ,

Fresno ,

Oakland ,

Sacramento ,

San Diego and

Ventura .

Â

The exams are given every weekday. Generally, it will take about seven weeks from the time you apply until you are scheduled to take the test.
